Audi R8 , 2023

Japan Final Edition 4WD Audi exclusive color – 12/2023

General Overview

The **Japan Final Edition 4WD** is an ultra-rare model, limited to only **8 units** produced exclusively for Japan. Finished in a striking **Audi exclusive color (Ibis White Matte)**, it represents the pinnacle of exclusivity and craftsmanship. This fully optioned vehicle showcases a perfect balance of **luxury, technology, and performance**, while special details such as **carbon fiber exterior accents, carbon fiber interior trim, carbon fiber engine cover, and bespoke sill plates** set it apart from standard editions. A true collector’s item, it embodies individuality and prestige.

Performance and Driving Dynamics

Equipped with Audi’s legendary **quattro all-wheel-drive system**, this edition ensures maximum stability, control, and handling precision across all driving conditions. The performance-oriented chassis, combined with features such as **cruise control, ABS, anti-skid device, obstacle sensors, automatic high beam, and hill descent control**, delivers both spirited driving and everyday practicality. Whether on highways or winding roads, the Final Edition guarantees confidence and exhilaration.

Exterior Design

The exterior exudes exclusivity with **carbon fiber detailing, full aero package, aluminum wheels, roof rails, LED headlights, and fog lamps**. The Ibis White Matte paint highlights its sharp design lines, while fully painted elements and sporty accents reinforce its premium presence. Every detail is carefully crafted to reflect performance and rarity, ensuring it stands out as a masterpiece on the road.

Interior and Comfort

The cabin combines **genuine leather seats, smart key access, electric seats, and heated seating** with bespoke craftsmanship. Custom **special floor mats** and **exclusive sill plates** emphasize its limited-edition character. Comfort-focused amenities such as **air conditioning, air purifiers, and advanced seat configurations** provide a luxurious environment, while technology-driven enhancements ensure a connected and driver-focused experience.

Technology and Safety

Packed with cutting-edge technology, this edition includes **multiple airbags (driver, passenger, side, and curtain), obstacle detection systems, cameras, anti-theft devices, and automatic high beam assist**. Infotainment is powered by a **premium audio system with Apple CarPlay, Android Auto, memory navigation** , making every journey intuitive and enjoyable. Safety is further elevated with **support car assist, collision mitigation braking, and parking assist** systems, ensuring the driver and passengers remain secure in all situations.
