

Aston Martin DB11 , 2023

Aston Martin DB11

Safety Equipment: This vehicle is equipped with **dual-stage driver and passenger airbags**, **Dynamic Stability Control (DSC)**, **Dynamic Torque Vectoring (DTV)**, **Emergency Brake Assist (EBA)**, **Electronic Brakeforce Distribution (EBD)**, and a **Hydraulic Brake Assist (HBA)** system. The **Aston Martin Tracking System** ensures additional security, and **traction control (TC)** enhances grip in various driving conditions.

Comfort Equipment: The cabin features **16-way electrically adjustable front seats with memory function**, **heated and ventilated seating**, and a **GT-style heated steering wheel** for added luxury. The **full leather interior** in the **Dark Knight leather palette** provides a premium feel, while the **auto-dimming interior rearview mirror** enhances visibility in low-light conditions.

Interior: The **Inspire Monotone interior** includes **contrast stitching**, **brogue trim detailing**, and a **leather-wrapped trim inlay**. The **powered stowage compartment with an armrest** provides additional practicality, while the **rotary dial convenience system** allows for intuitive control of various vehicle functions. The **2+2 seating arrangement** ensures a spacious yet sporty layout.

Exterior: The **Silver Metallic** exterior is complemented by **21-inch Satin Black Diamond Turned Alloy Wheels** and **gloss black upper and lower exterior packs**. The **smoked rear lamps**, **gloss black-painted roof panel**, and **gloss black front grille** add to its aggressive yet elegant styling. The **deployable spoiler with Aston Martin Aeroblade System** improves aerodynamics and stability at high speeds.

Performance: Equipped with **Electric Power Assisted Steering (EPAS)**, **Launch Control**, **Limited-Slip Differential (LSD)**, and **Positive Torque Control (PTC)**, this DB11 delivers dynamic driving performance. The **3-stage adaptive damping suspension** ensures a smooth yet responsive ride.

Technology and Multimedia: Featuring a **Bowers & Wilkins audio system**, **Aston Martin Premium Infotainment System**, **Bluetooth phone connectivity**, and a **touchpad control system**, the DB11 offers a high-end digital experience.

Driver Assistance Systems: Includes a **360-degree camera**, **blind spot monitoring**, **cruise control**, **front parking sensors**, and **park assist** to ensure effortless maneuvering and safety on the road.
