Overview

The Aston Martin DB12 2026 is a grand touring coupe powered by a petrol engine and finished in Hyper Red. %READMORE% This model combines modern design, long-distance comfort and a focused performance character.

Driving Performance

The automatic transmission delivers smooth and responsive performance in a variety of driving conditions. The DB12 is engineered to provide a balance of agility, refinement and stability.

Interior and Equipment

The cabin features Phantom Grey Semi Aniline Leather with Obsidian Black carpeting. Sports Plus Seats and 16-Way Seat Adjustment contribute to a comfortable and supportive environment for four occupants.

Technologies and Assistants

The vehicle includes a 360 Camera System, Blind Spot Assistance System and Keyless Entry. Additional convenience is provided through Extended Ambient Lighting and the Bowers and Wilkins Audio System.

Exterior

The coupe body is finished in Hyper Red with bright and black exterior detailing. Gloss Silver 21 Inch 5-Spoke Alloy Wheels and a glass roof panel complement the distinctive appearance.
