

Aston Martin Vantage , 2024

Aston Martin Vantage 2024

Safety Equipment: The Aston Martin Vantage is equipped with **ABS (Anti-lock Braking System), Emergency Brake Assist (EBA), and Electronic Brakeforce Distribution (EBD)** for optimal braking performance. It also includes **dual-stage driver and passenger front airbags, traction control (TC), and a high-security alarm with an immobilizer.** The **keyless entry system** adds convenience while maintaining security.

Comfort Equipment: The cabin features **8-way electrically adjustable sports seats with a full leather interior**, ensuring both luxury and comfort. The **heated front seats, electric steering column adjustment, and cruise control** enhance the driving experience. The **glass switchgear, black cabin carpeting, and Micromesh headlining** provide a refined atmosphere. Additionally, **keyless start-stop and open storage compartments** add to its practicality.

Interior: The **sports leather steering wheel** complements the **perforated sports seats**, creating a driver-focused cockpit. The **trim inlays are finished in Satin Graphite Painted**, and the **interior jewellery features a combination of Gloss Black and Satin Silver.** The **tread plates are integrated into the carpeted sill** for a seamless design.

Exterior: The **Aston Martin Vantage is finished in Yellow Metallic**, featuring **20-inch 10-spoke silver alloy wheels, dark anodized brake calipers, and matte black quad exhaust tailpipes.** The **body-colored roof, side gills, and door mirrors** contribute to its sleek, aerodynamic profile. It comes with a **Graphite Exterior Pack**, including a **splitter, diffuser, and side sills in Graphite**, as well as a **titanium silver front grille mesh and red tail lights.** Additionally, **paint protection film** ensures the longevity of the exterior finish.

Performance: The **Electric Power-Assisted Steering (EPAS) system** ensures responsive handling, making the Vantage both agile and comfortable to drive.

Technology and Multimedia: The Vantage is equipped with the **Aston Martin Audio infotainment system**, providing premium sound quality. The **central rotary dial allows for intuitive control of the system**, while **keyless start-stop functionality** adds to the seamless driving experience.

Driver Assistance Systems: Advanced features include **Blind Spot Monitoring, Park Assist, and a 360-degree parking camera**, ensuring safety and ease of maneuverability in tight spaces.

Lighting: The car features **red tail lights and LED exterior lighting**, providing both visibility and an elegant aesthetic.
