Ferrari 296 , 2024

Ferrari 296 GTB

Safety Equipment: The Ferrari 296 GTB is equipped with **driver and front passenger airbags, side airbags integrated into the headliner, and an advanced anti-theft system (SVR) with card access**. It features **ABS Evo with Electronic Brakeforce Distribution (EBD) and energy recovery**, ensuring efficient braking performance. The **ASR (Anti-Slip Regulation) system** enhances traction and stability, while **keyless entry and engine start** provide seamless access and operation.

Comfort Equipment: The **dual-zone air conditioning system** ensures a comfortable cabin environment, while the **electrochromic rearview mirror** automatically adjusts brightness to reduce glare. The **engine start touchscreen button on the steering wheel** further emphasizes the car's race-inspired cockpit design.

Interior: The Ferrari 296 GTB features a **driver-focused interior with premium materials**, a **race-inspired steering wheel**, and **intuitive controls**. The **minimalist layout and high-quality finishes** enhance the supercar experience.

Exterior: This model features **20-inch die-cast alloy wheels** for a striking look and optimized performance. Additional exterior features include **electric front windows**, a **car protection cover**, and a **tire reparation emergency kit** for convenience.

Performance: The **carbon-ceramic brake system (CCM)** provides exceptional stopping power, while the **Magnaride suspension system (SCME-Frs)** ensures precise handling and ride comfort. The **Race Manettino switch on the steering wheel** allows the driver to adjust driving modes for different conditions, and **electronic power steering** enhances control and responsiveness. The **eSSC (Electronic Side Slip Control) system** improves stability and cornering performance.

Technology and Multimedia: This model is equipped with **Apple CarPlay, Bluetooth audio streaming, digital radio (DAB), and a wireless smartphone charger**, ensuring advanced connectivity and entertainment options.

Driver Assistance Systems: The Ferrari 296 GTB includes **front and rear parking sensors, a rear parking camera, and a tire pressure and temperature monitoring system (TPTMS)** for added safety and convenience.

Lighting: The **Full Matrix-LED headlights with LED turn indicators and sidelights**, along with **automatic high beam functionality**, provide excellent visibility and adaptive lighting performance.
