Honda ZR-V , 2024

Honda ZR-V 2.0 e:HEV X – 07/2024

General Overview
The **Honda ZR-V 2.0 e:HEV X** is a stylish and modern hybrid SUV that combines efficiency, practicality, and advanced technology. Finished in **Platinum White Pearl**, this 2024 model is designed to deliver both everyday comfort and driving confidence with the latest Honda innovations.

Performance and Driving Dynamics
Equipped with a **2.0-liter e:HEV hybrid powertrain**, the ZR-V provides a smooth balance of petrol and electric driving, ensuring excellent efficiency and quiet operation. The intelligent e:HEV system delivers responsive acceleration, while cruise control and Honda’s refined driving dynamics guarantee a confident and stable ride.

Interior and Comfort
Inside, the cabin offers a premium and user-friendly environment. Key features include a **9-inch navigation system with Bluetooth and full-segment TV**, **push-button start**, and **smart key access**. The interior is thoughtfully designed for both driver and passengers, offering comfort and practicality for daily commutes and long journeys.

Technology and Safety
Equipped with **Honda SENSING**, the ZR-V ensures top-level driver assistance and safety, including **collision mitigation braking, lane keeping assist, adaptive cruise control, and obstacle detection**. A **rearview camera** enhances visibility and confidence during parking and city maneuvers.
