**Overview**
The **Tesla Model 3 82D kWh Long Range 03/2025** combines cutting-edge electric performance with minimalist design and advanced technology. %READMORE% Featuring Dual Motor AWD and a high-capacity 82 kWh battery, this Long Range model delivers impressive acceleration, extended driving range, and exceptional efficiency, all wrapped in the sleek Multi White Coat finish.

**Performance and Electric Driving**
Equipped with Tesla’s Dual Motor all-wheel-drive system, the Model 3 provides instant torque and smooth, silent acceleration. The 82 kWh battery ensures long-distance capability with excellent energy efficiency. Regenerative braking enhances range while delivering precise control. The low center of gravity from the battery placement improves stability and handling dynamics.

**Interior and Comfort**
The interior reflects Tesla’s signature minimalist approach, highlighted by a large 15.4-inch touchscreen that controls nearly all vehicle functions. Rear passengers benefit from an 8-inch display for climate and media control. Black leather seats with heating and ventilation ensure comfort in all seasons, while the panoramic glass roof enhances the sense of openness and space.

**Technology and Safety**
Tesla’s Autopilot system provides advanced driver assistance, including adaptive cruise control and lane keeping. Multiple cameras around the vehicle support parking assist and enhance safety. Over-the-air software updates continuously improve

functionality and performance. Seamless smartphone connectivity and smart key access add everyday convenience.

**Exterior**
Finished in elegant Multi White Coat, the Model 3 showcases a clean, aerodynamic silhouette designed for maximum efficiency. The 19-inch Nova wheels complement its sporty stance, while the panoramic glass roof adds a modern and premium touch.
