

BMW M5 , 2024

BMW M5 4.4 PHEV - 11/2024

Exterior:

The **2024 BMW M5 4.4 PHEV** introduces a bold evolution of the legendary M5, combining muscular styling with electrified performance. The body features flared fenders, an aggressive front fascia with enlarged air intakes, and a blacked-out kidney grille. Adaptive LED or optional Laser headlights and a subtly integrated rear diffuser with quad exhaust tips underscore its high-performance intent. The vehicle sits on 20-inch forged alloy wheels as standard, with 21-inch options available, emphasizing its athletic stance.

Performance and Efficiency:

Under the hood, the new M5 features a 4.4-liter twin-turbocharged V8 engine paired with an electric motor in a plug-in hybrid configuration. The combined system output is expected to exceed **717 horsepower** and **1,000 Nm of torque**, making it the most powerful M5 to date. Power is sent to all four wheels via an M-tuned xDrive system and an 8-speed M Steptronic transmission. Despite the added battery system, acceleration remains brutal—**0 to 100 km/h in approximately 3.4 seconds**. The PHEV setup also allows for short-range **electric-only driving**, with a battery capacity of around 18-20 kWh, offering an estimated **EV range of 40-50 km (WLTP)**.

Interior and Features:

The interior of the M5 PHEV blends luxury and motorsport precision. M multifunction sport seats, Merino leather upholstery, and carbon fiber or aluminum trim are standard. The curved BMW display includes a **12.3-inch digital instrument cluster** and a **14.9-inch central touchscreen** with the latest **iDrive 8.5** system. Features include **wireless Apple CarPlay/Android Auto**, **adaptive ambient lighting**, a **Bowers & Wilkins or Harman Kardon sound system**, **heated/ventilated/massage seats**, and a **panoramic roof**.

Technology and Safety:

BMW equips the M5 with its **Driving Assistant Professional** suite, which includes **adaptive cruise control**, **lane keeping assist**, **traffic jam assist**, **blind spot monitoring**, **360° cameras**, and **autonomous emergency braking**. Parking Assistant Plus with **remote control parking** and **reversing assistant** is also standard. The PHEV drivetrain includes configurable **driving modes**, including **pure electric**, **hybrid**, and **sport modes** for dynamic performance management.
