

BMW iX , 2021

BMW iX xDrive40 - 11/2021

General Overview

The **BMW iX xDrive40 (2021)** represents a new era of luxury electric mobility — blending sustainability, innovation, and unmistakable BMW design. Finished in an elegant exterior with a minimalist, futuristic aesthetic, the iX stands as a statement of sophistication and progress. This model offers the perfect balance between refined comfort, high performance, and cutting-edge electric technology.

Performance and Efficiency

Powered by **twin electric motors** delivering a combined output of **326 horsepower**, the iX xDrive40 accelerates from 0 to 100 km/h in just **6.1 seconds**. Its **all-wheel-drive system (xDrive)** ensures confident handling and stability on any surface. The 71 kWh (usable) battery provides an **electric range of up to 425 km (WLTP)**, while fast charging enables 10–80% recharge in approximately **30 minutes**.

Interior and Comfort

Inside, the iX redefines premium minimalism — featuring a **panoramic glass roof**, **vegan leather upholstery**, and a **curved digital display** combining both driver and infotainment screens. The cabin offers exceptional quietness and spaciousness, highlighted by ambient lighting and crafted materials that elevate the driving experience to a new level of serenity.

Technology and Safety

Equipped with BMW's **iDrive 8 operating system**, the iX offers **Apple CarPlay**, **Android Auto**, **adaptive cruise control**, **lane assist**, and a full suite of driver assistance features. The **360° camera**, **parking sensors**, and **collision mitigation systems** ensure both ease and confidence on the road.
