

Honda Vezel , 2022

Honda Vezel 1.5 Hybrid - 08/2022

Exterior:

The **2022 Honda Vezel 1.5 Hybrid** presents a sleek and modern SUV design with sharp lines and a coupe-inspired roofline. Its bold front fascia features a large grille with integrated slim LED headlights and daytime running lights. The dynamic side profile is complemented by chrome accents and 17-inch alloy wheels, while the rear sports stylish LED tail lights and a roof-mounted spoiler for a sporty touch.

Performance and Efficiency:

This model is powered by a **1.5-liter Atkinson-cycle petrol engine paired with Honda's e:HEV hybrid system**, combining two electric motors for optimal efficiency and smooth performance. The total system output is approximately **132 hp (96 kW)** and 253 Nm of torque. Power is delivered through an electronic CVT to the front wheels (2WD). It achieves impressive fuel efficiency, averaging around **4.5-5.0 L/100 km** (WLTC cycle).

Interior and Features:

Inside, the Vezel offers a clean, minimalist cabin with soft-touch materials and excellent ergonomics. The seating is comfortable with high-quality and the rear seats can fold flat to maximize cargo space. The center features a 9-inch touchscreen infotainment system with Apple CarPlay and Android Auto, digital climate control.

Technology and Safety:

Equipped with Honda Sensing, the Vezel includes adaptive cruise control, lane keeping assist, collision mitigation braking, and road departure mitigation. Other conveniences include a multi-angle rearview camera, parking sensors, blind spot monitoring, and keyless entry with push-button start.
