# Lamborghini Urus , 2024

**Lamborghini Urus – 11/2024**

**Safety and Assistance Systems:**
This 2024 Urus is equipped with the **Full ADAS Package**, delivering high-level active safety and driver assistance features for a confident and controlled experience. Adaptive cruise control with a speed limiter and keyless entry provide daily convenience, while advanced systems work seamlessly to support both city driving and high-speed cruising.

**Performance and Handling:**
The Urus features **23-inch Pelope alloy wheels with titanium bolts, diamond finished in Shiny Black**, giving it a bold and aggressive stance. The **Akrapovic titanium exhaust system** enhances the emotional sound experience, while **carbon ceramic brakes** and **4-wheel steering** ensure dynamic handling, responsiveness, and precision. The **visible carbon fibre bonnet** and the **Full Shiny Carbon Fibre exterior package** reduce weight while adding a distinct motorsport-inspired aesthetic.

**Comfort and Multimedia:**
This luxury performance SUV offers a refined tech experience with the **Bang & Olufsen Advanced 3D Audio System**, smartphone interface with Apple CarPlay and Android Auto, and **privacy glass** for enhanced acoustic comfort. The **electric panoramic roof** opens up the cabin, while **front-end paint protection film (PPF)** helps preserve the stunning exterior finish.

**Interior and Seats:**
The cabin is styled in **Sportivo Alcantara Bicolour with Performante trim in Nero Cosmus and Blu Cepheus**, blending high-performance character with luxury craftsmanship. **Full-electric front seats with ventilation and massage**, **soft-close doors**, and **embroidered Lamborghini logos on the headrests** emphasize sophistication. Unique touches like **seat belts in Blu Cepheus**, **optional contrast stitching** throughout (including the steering wheel), and **coloured carpets with leather piping and double stitching** create a tailored, bespoke atmosphere. A **sport steering wheel in full Alcantara** with a red marker and dark chrome bezel completes the sporty, driver-focused cockpit. Carbon fibre accents are featured throughout the interior, including a **small interior carbon package** and the **Upper Interior Carbon Package** over the air vents and instrument panel.

**Exterior:**
Finished in a striking **metallic blue from the Eclettica range**, this Urus features bold **visible carbon elements**, the **Full Carbon Exterior Package**, and **diamond-finished 23-inch wheels**, delivering visual impact with every detail. Design, materials, and performance come together in perfect Lamborghini harmony.

## Specifications:

ID: BZD-219
Final Price: 375000.00 EUR
Interior Color: Black
Number of Seats: 5
Steering Side: Right
Condition: New
