

Lexus NX , 2024

Lexus NX350h - September 2024

Safety and Assistance Systems:

This NX350h is equipped with essential safety technologies, including an anti-lock braking system (ABS), multiple airbags, and power steering (PS) for stable and responsive handling. The vehicle also includes a navigation system and rearview assistance features to support confident driving in various conditions.

Comfort and Multimedia:

The SUV offers a premium multimedia system with TV functionality and built-in navigation. Features such as power windows (PW), a sunroof (SR), and automatic air conditioning (AAC) contribute to a high level of in-cabin comfort for both the driver and passengers.

Interior and Seats:

Inside, the vehicle features high-quality leather seats designed for both comfort and durability. The cabin layout is spacious and ergonomic, making it ideal for everyday use and long journeys alike. Warranty documentation is included, indicating the vehicle's maintained condition.

Exterior:

Finished in a unique Green (Color No. 6X4), the NX350h presents a bold and refined look. Alloy wheels (AW) add a sporty touch, while the hybrid powertrain with a 2500cc gasoline engine delivers a balance of performance and efficiency.
