

Mazda MX-30 , 2023

Mazda MX-30 2.0 - 10/2023

General Overview

The **Mazda MX-30 2.0** is a stylish and innovative crossover that combines modern design with advanced technology. Finished in elegant **Jet Black Mica**, it delivers a distinctive presence while maintaining Mazda's focus on driving pleasure and safety.

Performance and Driving Dynamics

Powered by a **2.0-liter petrol engine producing 155 horsepower**, the MX-30 ensures smooth and efficient driving dynamics, supported by **radar cruise control**, stability systems, and responsive handling. The integration of **collision mitigation braking** and parking sensors enhances driver confidence in both city and highway conditions.

Exterior Design

The exterior showcases Mazda's signature **KODO design language**, highlighted by **LED headlights**, automatic high beam, and **genuine 18-inch aluminum wheels**, giving the MX-30 a refined yet athletic stance.

Interior and Technology

Inside, the MX-30 features a **genuine 8.8-inch display** with full connectivity, including **Apple CarPlay and Bluetooth**. The **all-around camera system** provides excellent visibility and convenience, making daily driving easier and safer.

Safety and Convenience

Packed with modern driver-assistance features, the MX-30 includes **adaptive cruise control, collision mitigation, obstacle sensors**, and smart key functionality, ensuring both protection and comfort for its occupants.
