Mazda Mazda 2 , 2022

Mazda 2 15S Smart Edition – 01/2022

Exterior:
The **Mazda 2 15S Smart Edition** presents a modern, clean design finished in a subtle silver metallic tone that reflects Mazda's **Kodo design** philosophy — movement captured in stillness. Its compact body offers a refined silhouette with sculpted curves, a wide grille, and sharp LED lighting elements that give it an upscale feel despite its modest size. The front fascia flows smoothly into a sporty rear end with integrated tail lamps and a roof spoiler, all riding on 15-inch steel wheels with full wheel covers. The compact proportions make it perfectly suited for both urban streets and narrow suburban roads.

Performance:
Powered by a responsive **1.5-liter inline-4 petrol engine**, the 15S Smart Edition delivers a balanced blend of efficiency and everyday drivability. Producing **110 horsepower**, it is mated to a **6-speed automatic transmission** and features **front-wheel drive (2WD)**. The lightweight chassis and refined suspension provide smooth handling, excellent maneuverability, and confidence in both city and highway driving. The Smart Edition strikes a great balance between fuel economy and performance, with a combined consumption around 5.0 L/100km under Japanese standards.

Interior and Comfort:
Inside, the cabin is thoughtfully designed with high-quality fabric upholstery in black and subtle contrast stitching. The Smart Edition lives up to its name, offering a comfortable and ergonomic driving environment for five passengers. The dashboard features soft-touch materials and a clean horizontal layout, with easy-to-use controls and a multifunction steering wheel. Rear seats fold in a 60/40 split, expanding cargo space when needed, while sound insulation ensures a quiet and pleasant ride.

Technology and Safety:
The Mazda2 15S Smart Edition includes a central infotainment display with **Bluetooth connectivity**, **USB input**, and **steering wheel controls**. It supports voice control and hands-free calling, making daily commutes more convenient. Safety is well-covered with **ABS**, **traction control**, **hill-start assist**, **multiple airbags**, **ISOFIX child seat anchors**, and **automatic emergency braking (Smart City Brake Support)**. Keyless entry and push-button start are standard, adding a premium touch to this well-rounded compact hatchback. **We can install Apple CarPlay and Android Auto.**

Specifications:

ID: EAN-684
Final Price: 15800.00 EUR
Interior Color: Black
Number of Seats: 5
Steering Side: Right
Condition: New
