

Mazda CX-60 , 2024

Mazda CX-60 2.5L PHEV Premium Sport - 10/2024

General Overview

The **Mazda CX-60 2.5L PHEV Premium Sport (Plug-in Hybrid Electric Vehicle)** from October 2024 stands as the flagship expression of Mazda's engineering excellence and refined Japanese design. Combining premium craftsmanship, high efficiency, and cutting-edge technology, this model delivers a driving experience that is both powerful and environmentally responsible. With its sophisticated presence, seamless **all-wheel drive (4WD)** system, and complete **Full Extra** configuration, it embodies the perfect blend of performance, luxury, and innovation.

Performance and Efficiency

At the heart of the CX-60 lies a **2.5-liter petrol engine** combined with an electric motor, producing a total output of **327 horsepower** and **500 Nm of torque**. This plug-in hybrid system allows for an effortless transition between electric and petrol modes, offering strong yet smooth acceleration and remarkable fuel efficiency. The **i-Activ AWD** system ensures optimal stability and control on every surface, while **paddle shifters** enhance the driving experience. Additional features like **Hill Descent Control** and **Radar Cruise Control** provide confidence and precision whether driving in the city or exploring off-road terrain.

Interior and Comfort

The interior of the CX-60 Premium Sport exudes elegance and comfort. The cabin features **leather seats**, with all passengers enjoying **heated seating**, while the **front seats are also ventilated** for year-round comfort. A **leather-wrapped steering wheel**, **panoramic sunroof**, and **BOSE premium sound system** enrich the overall atmosphere, making every drive a refined experience. The vehicle includes **built-in navigation**, a **360-degree camera system**, and **front and rear dash cameras** for maximum awareness and safety. With **push-button start**, **two smart keys**, and an **electrically powered rear door**, convenience is integrated into every detail.

Technology and Safety

Mazda's **i-Activsense** suite provides exceptional safety and driver assistance, featuring **Blind Spot Monitoring**, **Rear and Front Cross-Traffic Alerts**, **Adaptive Cruise Control**, **Lane Keeping Assist**, and **Emergency Lane-Keeping System**. The model also includes **Road Sign Recognition**, **Driver Attention and Fatigue Monitoring**, and **Smart Brake Support** to prevent collisions. Systems such as **Driver Support (CTS)**, **Misstep Accelerator Prevention**, and **Secondary**

Collision Mitigation underline Mazda's commitment to intelligent protection and confidence behind the wheel
