Overview

The McLaren 750S Spider 4.0 01/2024 is a breathtaking open-top supercar that embodies McLaren's pursuit of lightweight engineering, extreme performance, and cutting-edge technology. %READMORE% Finished in the striking and iconic Mantis Green, this one-owner example features an exceptional specification including the Black Pack Exterior, carbon fiber components, Bowers & Wilkins audio system, and carbon ceramic brakes, making it a rare and highly desirable supercar.

Driving Performance

At its core lies a 4.0-liter twin-turbocharged V8 engine delivering extraordinary power and razor-sharp responsiveness. Paired with McLaren's 7-speed Seamless Shift Gearbox (SSG) and rear-wheel drive, the 750S Spider offers lightning-fast acceleration, precise handling, and an exhilarating driving experience. Advanced Proactive Chassis Control III suspension and the lightweight carbon-fiber Monocage II-S architecture ensure exceptional agility, stability, and driver engagement both on road and track.

Interior and Comfort

The driver-focused cockpit combines McLaren's Performance Interior with premium materials and ergonomic design. Electric seats with heating provide comfort and support, while the Bowers & Wilkins premium audio system and smartphone integration deliver an immersive and connected experience. The retractable hardtop allows drivers to enjoy open-air motoring without compromising refinement or practicality.

Technology and Safety

Equipped with advanced safety and driver assistance technologies, the 750S Spider features electronic stability control, cruise control, parking sensors, and a 360° surround-view camera. Adaptive LED headlights enhance visibility, while modern infotainment with Apple CarPlay and Android Auto ensures seamless connectivity and everyday usability.

Exterior

The dramatic and aerodynamic design of the McLaren 750S Spider is accentuated by the vivid Mantis Green finish and Black Pack Exterior. Carbon fiber elements—including the carbon bonnet and rear bumper upper—enhance both aesthetics and performance. The forged aluminum wheels, carbon ceramic brakes, and sports exhaust underline the car's track-focused pedigree, while the retractable hardtop transforms it from a sleek coupe into an exhilarating open-top supercar.
