Overview

The Mercedes-Benz EQS 450+ 11/2024 is a flagship all-electric luxury hatchback that combines cutting-edge innovation with first-class comfort. %READMORE% Finished in striking Hyacinth Red Metallic and equipped with AMG Line and Exclusive packages, this EQS delivers premium electric mobility with advanced technology and refined elegance, available through our Cyprus car dealership.

Driving Performance

The fully electric powertrain provides smooth, silent acceleration and impressive range, while the 4-wheel steering system enhances maneuverability in urban environments and stability at high speeds. The adaptive air suspension ensures exceptional ride comfort and dynamic control.

Interior and Equipment

The cabin features black leather upholstery with electrically adjustable, heated and ventilated seats for both front and rear passengers. The panoramic sunroof enhances the sense of space, while the Burmester 3D sound system and MBUX augmented reality navigation create a truly immersive driving experience.

Technologies and Assistants

Equipped with adaptive cruise control, Lane Keep Assist, collision prevention assist, blind spot monitoring, and a 360° camera system. The Head-Up Display and advanced driver assistance systems ensure maximum safety and convenience.

Exterior

The AMG Line styling package adds sporty elegance to the aerodynamic EQS silhouette. The Hyacinth Red Metallic finish, adaptive LED lighting, and refined design details emphasize its status as Mercedes-Benz's electric flagship.
