Overview

The Mercedes-Benz EQC 400 4MATIC AMG Line 12/2023 is a premium all-electric SUV combining AMG styling, advanced technology, and intelligent 4MATIC all-wheel drive. %READMORE% Finished in Obsidian Black Metallic, this Mercedes-Benz EQC for sale offers refined electric performance and luxury comfort, available through our car dealership in Cyprus.

Driving Performance

The dual-motor electric system delivers smooth, powerful acceleration with instant torque and quiet operation. The 4MATIC all-wheel drive system ensures optimal traction and stability, while adaptive air suspension enhances ride comfort and dynamic handling.

Interior and Equipment

The cabin accommodates 5 passengers and features electric heated seats, premium materials, and advanced comfort systems. The Air Balance Package and dual-zone climate control provide a refined in-cabin atmosphere, while the head-up display enhances driving focus.

Technologies and Assistants

Equipped with Adaptive Cruise Control, Lane Keep Assist, Blind Spot Monitoring, Collision Mitigation Braking, 360-degree camera, and advanced radar safety systems. Multi-beam LED headlights and automatic high beam assist improve visibility and safety in all conditions.

Exterior

The Obsidian Black Metallic finish highlights the sporty AMG Line styling. Aluminum wheels, glass sliding roof, and signature Mercedes-Benz LED lighting create a modern and elegant electric SUV presence.
