

Mercedes AMG One , 2024

Mercedes-AMG ONE - 03/2024

Exterior:

The **2024 Mercedes-AMG ONE** is a street-legal hypercar infused with Formula 1 technology. Its exterior is built for aerodynamic excellence, featuring active aero components like a retractable rear wing, adaptive flaps, and a large roof-mounted air intake. The body is made entirely of carbon fiber, with aggressive lines and deep vents that enhance downforce and cooling. With dimensions of approximately **4.76 meters** in length, **2.01 meters** in width, and **1.26 meters** in height, the AMG ONE sits low and wide for maximum track performance.

Performance and Efficiency:

At its heart, the AMG ONE uses a **1.6-liter turbocharged V6 hybrid engine** derived directly from Formula 1, paired with **four electric motors**. This advanced plug-in hybrid powertrain produces a **combined total of 1,063 horsepower (782 kW)**. The power is split between the rear wheels (via the V6 and crankshaft motor) and the front axle (twin electric motors), enabling full-time **all-wheel drive**. Acceleration from 0 to 100 km/h takes just **2.9 seconds**, with a top speed exceeding **352 km/h**. The 8.4 kWh battery offers an **electric-only range of about 18 km**, ideal for short city segments.

Interior and Features:

Inside, the cabin is race-inspired but road-legal. It features fixed bucket seats with adjustable pedals and steering column, a digital instrument display, and a central infotainment screen. The cabin uses exposed carbon fiber and Alcantara throughout, reflecting its motorsport DNA. Despite its performance focus, the AMG ONE includes air conditioning, power windows, and infotainment—rare luxuries in the hypercar class.

Specifications:

ID: NDP-744

Final Price: 4500000.00 EUR

Interior Color: Black

Number of Seats: 2

Steering Side: Right

Condition: New
