Overview

The Mercedes-Benz EQS 450+ AMG Line Package 2022 represents the pinnacle of electric luxury, combining cutting-edge EV technology with the elegance and refinement of the S-Class lineage. %READMORE% Designed for smooth, silent performance and exceptional comfort, this flagship electric sedan delivers advanced innovation, premium materials, and striking AMG styling.

Performance & Electric Driving

Powered by a high-capacity electric motor driving the rear wheels, the EQS 450+ offers instant torque, seamless acceleration, and exceptionally quiet operation. The advanced battery system ensures long-range capability and refined cruising performance suited for both city and highway driving.

Interior & Comfort

The cabin reflects true executive-class luxury, featuring genuine leather seats with heating and ventilation, rear seat ventilation, ambient lighting, and a panoramic sliding roof that enhances spaciousness. The Air Balance Package improves cabin air quality and fragrance experience, creating a refined atmosphere for all occupants.

Technology & Safety

Equipped with the Radar Safety Package, including adaptive cruise control, lane keeping assist, collision mitigation braking, blind spot monitoring, and a 360-degree camera system. The AR navigation and advanced digital cockpit provide intuitive control and futuristic visual displays, while the Burmester sound system delivers exceptional audio quality.

Exterior

Finished in elegant Obsidian Black Metallic, the AMG Line Package adds sporty styling elements, aerodynamic accents, and distinctive alloy wheels, giving the EQS a powerful and sophisticated road presence.
