Mercedes GLC-class , 2023

Mercedes-Benz GLC 220 d 4MATIC – 07/2023

General Overview
The Mercedes-Benz GLC 220 d 4MATIC is a premium SUV that blends modern luxury with reliable performance. In a striking red exterior, it combines elegance with a bold presence, making it stand out both in the city and on long drives.

Performance and Driving Dynamics
This GLC is powered by a **2.0-liter diesel turbo engine delivering 197 horsepower**, paired with the **4MATIC all-wheel-drive system** for superior control and stability in all conditions. The automatic transmission ensures smooth and effortless driving, while the well-balanced chassis guarantees comfort and confidence on every journey.

Interior and Comfort
The cabin offers a refined environment with high-quality materials and intelligent design. Equipped with **power-adjustable seats**, **heated front seats**, and a **dual-zone automatic climate control system**, the GLC prioritizes comfort for both driver and passengers. The spacious interior and practical layout make it ideal for family use and long-distance travel.

Technology and Safety
Technology plays a key role in this GLC, featuring **Apple CarPlay** for seamless smartphone integration, advanced **navigation**, and an intuitive infotainment display. Safety is enhanced through **collision mitigation braking, adaptive cruise control, blind-spot assist, lane-keeping assist, parking sensors, and a 360° camera system**, ensuring maximum confidence behind the wheel.

Exterior Design
With its bold red finish, the GLC 220 d emphasizes a confident yet refined look. **LED headlights** provide excellent visibility, while stylish **alloy wheels** add to its premium stance. The clean, elegant lines highlight its status as a versatile luxury SUV that suits both urban life and open-road adventures.
