Mercedes-Benz EQC 400 4MATIC - 04/2022

Exterior:

The **2022 Mercedes-Benz EQC 400 4MATIC** continues the model's signature electric elegance with a bold and futuristic presence. Its front fascia features a large black-panel grille with chrome accents and LED high-performance headlights connected by a horizontal light strip. The sculpted sides and 19-inch alloy wheels emphasize refinement and aerodynamics. At the rear, a full-width LED light band enhances visual width and modernity, while subtle roof rails and a gently sloping silhouette highlight the EQC's crossover styling.

Performance and Efficiency:

The EQC 400 4MATIC is driven by two asynchronous electric motors—one on each axle—producing a combined **408 hp (300 kW)** and **760 Nm** of torque. The all-wheel-drive system ensures excellent traction and dynamic performance, with acceleration from 0 to 100 km/h in **5.1 seconds** and an electronically limited top speed of **180 km/h**. The vehicle is equipped with an **80 kWh** lithium-ion battery (usable capacity), delivering a WLTP range of up to **437-462 km** depending on conditions. Average energy consumption is **21.5-22.3 kWh/100 km** in mixed driving.

Interior and Features:

Inside, the **2022 Mercedes-Benz EQC 400 4MATIC** offers a premium cabin with a balance of sustainability and sophistication. The MBUX infotainment system includes dual **10.25-inch** high-definition displays, voice assistant functionality, and intuitive controls. The car supports **Apple CarPlay**, **Android Auto**, and features **dual-zone climate control**, ambient lighting with **64 selectable colors**, wireless smartphone charging, and finely crafted materials throughout the cabin. The rear seats fold to expand cargo capacity from **500 liters** to **1,460 liters**.
