Mercedes-Benz E-Class E350de Sport Diesel Turbo - 02/2023

General Overview

The **Mercedes-Benz E350de Sport Diesel Turbo** is a cutting-edge luxury sedan that combines the efficiency of a diesel engine with the innovation of plug-in hybrid technology. Produced in **02/2023**, it stands out in the E-Class lineup by offering long-distance fuel economy, electric drive capability, and the premium refinement expected from Mercedes-Benz. This model caters to drivers who demand both performance and sustainability without compromise.

Performance and Driving Dynamics

Equipped with a **2.0-liter turbocharged diesel engine paired with an electric motor**, the E350de produces a combined output of **306 horsepower** and immense torque, delivering effortless acceleration and strong pulling power. The plug-in hybrid system allows for efficient all-electric driving in the city while retaining long-range capability on diesel power. The car features **air suspension, adaptive cruise control, lane keep assist, parking assist, ABS, and collision mitigation braking**, ensuring supreme stability, comfort, and safety in every driving scenario.

Exterior Design

The sporty exterior design of the E350de is enhanced with refined Mercedes-Benz styling cues, including **LED lighting, aerodynamic bodywork, and premium alloy wheels**. Every detail reflects a balance of elegance and performance-focused design, reinforcing its role as a luxury executive sedan with modern appeal.

Interior and Comfort

Inside, the cabin is a showcase of Mercedes craftsmanship, offering **genuine leather seats, power-adjustable electric seating, Smart Key access, and a multifunction steering wheel**. The spacious layout and meticulous finish provide both driver and passengers with a blend of comfort and exclusivity. Convenience features such as **dual-zone climate control and advanced seating ergonomics** add to its premium nature.

Technology and Safety

The E350de comes fully equipped with the latest Mercedes-Benz technology, including **HDD navigation, Display Audio with Apple CarPlay and Android Auto, front/rear/side cameras, blind-spot monitoring, anti-theft systems, and dashcam integration**. A suite of intelligent safety systems ensures maximum

protection, while infotainment and digital connectivity provide an intuitive and luxurious driving experience.
