Overview

The Mercedes-Benz EQC EQC 400 4MATIC AMG Line 2023 is a premium all-electric SUV that combines luxury, performance, and advanced technology. %READMORE% Featuring dual electric motors and 4MATIC all-wheel drive, this model delivers smooth acceleration, refined comfort, and zero-emission driving with the distinctive elegance of Mercedes-Benz.

Performance & Electric Driving

Powered by a dual-motor electric system, the EQC 400 provides confident acceleration and stable traction through its intelligent 4MATIC all-wheel-drive system. The fully electric drivetrain ensures silent operation, instant torque delivery, and a smooth, refined driving experience.

Interior & Comfort

The cabin offers premium genuine leather seats with heating and ventilation, ambient lighting, and a panoramic sunroof that enhances spaciousness. Power-adjustable seats and advanced climate control create a luxurious and relaxing atmosphere for both driver and passengers.

Technology & Safety

Equipped with advanced driver assistance systems including adaptive cruise control, lane keeping assist, collision mitigation braking, blind spot monitoring, and a 360-

degree surround-view camera. Multi-beam LED headlights improve night visibility, while digital cockpit displays and Apple CarPlay ensure modern connectivity.

Exterior

Finished in elegant Opalis White, the AMG Line styling enhances the sporty character with dynamic body accents and original 21-inch alloy wheels, giving the EQC a bold and sophisticated presence on the road.
