## Mitsubishi Outlander PHEV G 4WD - 02/2022

### General Overview

The Mitsubishi Outlander PHEV G in **Red Metallic** is a refined plug-in hybrid SUV that perfectly combines eco-efficiency, comfort, and advanced driving technology. This 2022 model features a 5-seat configuration and a well-balanced design aimed at drivers seeking both practicality and sophistication. Its bold color and advanced equipment make it an appealing choice for families and professionals alike.

### Performance and Driving Dynamics

Powered by a **2.4-liter plug-in hybrid engine** working in harmony with **twin electric motors** and a **4WD system**, the Outlander PHEV G ensures smooth acceleration, excellent traction, and stable performance in all conditions. The intelligent hybrid drive system automatically optimizes power delivery between the petrol engine and electric motors for maximum efficiency and quiet operation. Its **automatic transmission (FAT)** offers seamless shifts, while regenerative braking enhances energy recovery during driving.

### Interior and Comfort

Inside, the Outlander PHEV provides a clean and functional interior with a **5-passenger layout** and premium materials that promote a comfortable atmosphere. The vehicle includes a **smartphone-linked navigation system, full-segment TV**, and a **multi-view rear camera**, ensuring convenience and intuitive operation. The **roof rails** add extra practicality for carrying outdoor or travel equipment. A **non-smoking interior** reflects careful use and excellent condition.

### Technology and Safety

The Outlander PHEV G 4WD 2022 is equipped with a full suite of modern safety and driver-assistance systems including **ABS, airbags, traction control, and stability support**, providing confidence on every journey. The combination of Mitsubishi's hybrid technology and its robust all-wheel-drive system ensures reliable, quiet, and efficient performance suited to all types of driving.
