Mitsubishi Outlander , 2021

Mitsubishi Outlander PHEV 2.4G 4WD – 12/2021

General Overview
The **Mitsubishi Outlander PHEV 2.4G** in **Black Mica** represents the perfect balance of advanced hybrid technology, premium comfort, and confident all-wheel performance. This 2021 model combines electric efficiency with SUV practicality, offering a refined experience for both urban commutes and long-distance journeys. Designed with sophistication and versatility in mind, it remains one of Mitsubishi's flagship plug-in hybrid vehicles.

Performance and Driving Dynamics
Equipped with a **2.4-liter plug-in hybrid engine** paired with **twin electric motors** and **4WD**, the Outlander PHEV delivers impressive responsiveness and smooth power delivery. Its **automatic transmission** and intelligent hybrid control system ensure optimal efficiency and quiet operation. The model supports **AC1500W power supply** and a **100V charging outlet**, making it practical for outdoor activities or emergency power use. **Paddle shifters** add a dynamic touch to the driving experience, giving the driver more control in various road conditions.

Interior and Comfort
Inside, the Outlander PHEV offers a refined environment with **half-leatherette seats**, **heated front seats**, and **power-adjustable seating** that ensure comfort on every journey. The **BIG-X11 premium navigation system** and **surround view camera** provide intuitive control and superior visibility. Additional features such as a **power back door** and **drive recorder** enhance convenience and security. The spacious cabin layout ensures a comfortable ride for all passengers, while the **black interior** reflects careful ownership and excellent condition.

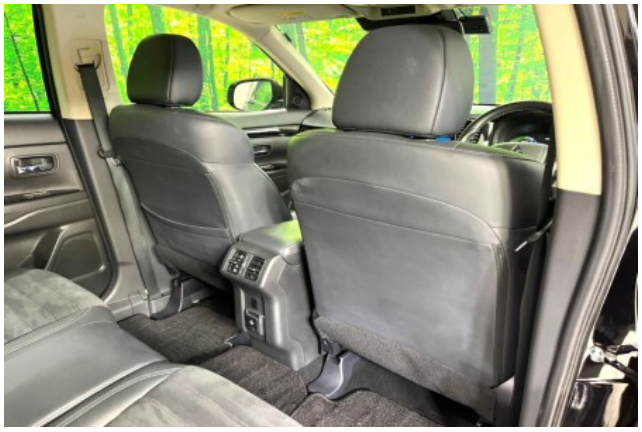

Technology and Safety
This model comes equipped with Mitsubishi's latest driver-assistance technologies, including an advanced **surround camera system**, parking support functions, and stability control systems designed for confident and safe driving. The combination of electric and gasoline power ensures both eco-friendly operation and strong all-weather performance, making the Outlander PHEV 2.4G a reliable and sophisticated SUV for modern lifestyles.
