

Mitsuoka Viewt , 2021

Mitsuoka Viewt 12ST - 12/2021

General Overview

The **Mitsuoka Viewt** is a unique Japanese car built on the **Nissan March (K13)** platform, but styled in a striking retro design reminiscent of classic British sedans. This late **2021 model** is finished in **Black**, giving it a refined and elegant character. The car blends nostalgic looks with the proven reliability of modern Japanese engineering.

Performance and Efficiency

Under the hood is a **1.2-liter gasoline engine** paired with a **CVT automatic transmission**. This combination delivers smooth acceleration and excellent fuel efficiency, making it ideal for everyday urban driving. The **front-wheel drive (2WD)** setup ensures easy handling and economical running costs.

Interior and Features

The cabin seats **5 passengers** and stands out with its **red faux-leather seats**, adding a touch of premium character to the interior. Equipment includes a **multimedia system with navigation**, a **rear-view camera**, and stylish chrome exterior door handles with decorative trim. The interior successfully combines practicality with retro-inspired elegance.

Technology and Safety

The car is equipped with modern driver assistance systems such as **emergency braking**, **pedal misapplication prevention**, and **lane departure warning**. Additionally, it offers a multimedia system with a **TV tuner and navigation**, ensuring every trip is both safe and comfortable.
