Nissan GT-R , 2023

Nissan GT-R Premium Edition – 07/2023

General Overview
The **Nissan GT-R Premium Edition** is a legendary Japanese supercar that combines advanced technology, thrilling performance, and refined luxury. This particular example has only **700 km** on the odometer, making it practically brand new. Finished in **Pearl White** with an exclusive **Brown interior**, it stands out with its unique blend of style and power.

Performance and Driving Dynamics
Powered by a **3.8-liter V6 Twin-Turbo engine** producing over **570 horsepower**, the GT-R delivers breathtaking acceleration and track-ready performance. Paired with an **automatic transmission with paddle shifters** and **FAT (Full-time 4WD)** system, it ensures maximum grip and control in all conditions. Features such as **ABS, stability control, cruise control, and multiple drive modes** allow for both dynamic performance on winding roads and everyday usability.

Exterior Design
The exterior emphasizes its aggressive sports car character with **aerodynamic design elements, LED headlights, lightweight alloy wheels, and iconic GT-R styling cues**. Every detail is engineered not just for visual appeal but also for enhanced aerodynamics and performance.

Interior and Comfort
Inside, the cabin reflects the spirit of a premium sports car with a focus on quality and functionality. It features **leather sport seats with electric adjustments, a multifunction steering wheel, climate control, and exclusive orange interior accents**, creating a perfect balance between comfort and racing-inspired design.

Technology and Safety
The GT-R comes equipped with advanced safety systems including **multiple airbags, ABS, traction control, rearview camera, and parking sensors**. These technologies ensure maximum safety and confidence whether driving through the city or pushing performance limits on the open road.

Specifications:

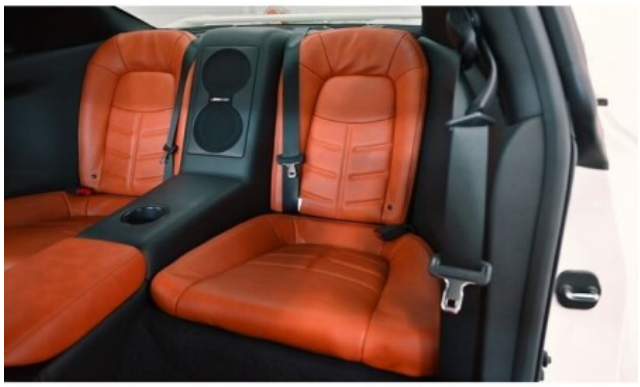

ID: HRB-346

Final Price: 143000.00 EUR
Interior Color: Orange
Number of Seats: 4
Steering Side: Right
Condition: New
