Nissan Leaf , 2023

Nissan Leaf XV Selection – 2023

General Overview
The **Nissan Leaf XV Selection** is a modern electric hatchback that combines eco-friendly performance with advanced technology and refined comfort. As a **2023 model**, it offers a balance of sustainability, practicality, and style, making it one of the most recognized EVs on the market.

Performance and Driving Dynamics
Equipped with an electric motor delivering **150 horsepower (110 kW)** and **320 Nm of torque**, the Leaf provides smooth and instant acceleration with quiet efficiency. Advanced driving technologies such as **adaptive cruise control, lane keep assist, stability control, ABS, obstacle sensors, collision mitigation braking, and automatic high beam** ensure both safety and convenience in daily driving.

Interior and Comfort
The cabin is designed with comfort and functionality in mind. Features include **leather seating, Smart Key system, power windows, push-button start, and a multifunction steering wheel**. The layout emphasizes practicality while offering a premium atmosphere for both driver and passengers.

Technology and Safety
Safety and driver assistance are key strengths of the XV Selection. It comes with **multiple airbags, blind spot and rear traffic monitoring, all-around cameras, anti-skid devices, and anti-theft protection**. Additional equipment such as **LED headlights, aluminum wheels** reinforce both safety and convenience, ensuring confidence in every journey.
