

Subaru BRZ , 2021

Subaru BRZ 2.4 R - 10/2021

Exterior

This Subaru BRZ is finished in **Ice Silver Metallic**, giving the coupe a sharp and modern appearance. Its low and wide stance highlights the car's sporty proportions, while aerodynamic styling elements enhance its performance-oriented design. The **2-door coupe body** captures the essence of a pure driver's car, designed for agility and balance.

Performance and Driving Dynamics

The BRZ is powered by a **2.4-liter flat-4 Boxer engine**, paired with an **automatic transmission** and **rear-wheel drive**. Producing around **232 hp** and **250 Nm of torque**, it delivers a lively and engaging driving experience. Thanks to its **low center of gravity**, lightweight chassis, and precise steering, the BRZ offers excellent handling, making it a true enthusiast's sports coupe.

Interior and Comfort

Inside, the BRZ focuses on a driver-centered layout, with **sport bucket seats**, intuitive controls, and high-quality trim materials. Features include **climate control**, a multifunction steering wheel, and a modern infotainment system with connectivity options. Despite being a compact coupe, the BRZ provides seating for **4 occupants**, with rear seats suitable for short trips or folding down for added practicality.

Technology and Safety

The Subaru BRZ is equipped with essential safety systems including **airbags**, **ABS**, and **stability control**, ensuring secure handling under all conditions. Additional equipment includes **power mirrors**, **alloy wheels**, and modern infotainment functions. While minimalistic compared to luxury coupes, the BRZ emphasizes lightweight simplicity, technology where it matters, and an uncompromised connection between driver and machine.
