

Tesla Model 3 , 2021

Tesla Model 3 Standard Range Plus - 08/2021

Exterior

This **Tesla Model 3** is finished in an elegant **Blue** exterior color with a contrasting **White interior**, creating a sleek and modern look. The streamlined coupe-like sedan body emphasizes aerodynamics, complemented by a panoramic glass roof and stylish alloy wheels.

Performance and Driving Dynamics

Powered by an **electric motor** with **rear-wheel drive (RWD)**, the Model 3 Standard Range Plus delivers approximately **283 horsepower**. Acceleration is smooth and instantaneous, with 0-100 km/h in about **5.6 seconds**. Its precise handling and low center of gravity ensure excellent road stability and driving confidence.

Interior and Comfort

Inside, the cabin is minimalist yet futuristic, featuring premium **synthetic leather seats** in white, providing comfort for five passengers. The glass roof enhances cabin space and openness. The advanced infotainment system with a large central touchscreen includes **Bluetooth, navigation, and smartphone connectivity (Apple CarPlay/Android Auto compatibility via SYNC updates in later models)**.

Technology and Safety

Equipped with Tesla's renowned **Autopilot system**, this Model 3 offers adaptive cruise control, lane-keeping assist, collision mitigation braking, and blind-spot monitoring. Additional highlights include a 360° parking system, rear-view camera, wireless charging, and keyless entry with smart key access. Safety is supported by multiple airbags, ABS, stability control, and cutting-edge driver-assist features.
