# Toyota Aqua , 2021

**Toyota Aqua 1.5L Hybrid – 06/2021**

**General Overview**
The **Toyota Aqua 2021** represents the newest generation of Toyota's successful hybrid hatchback, built on the **GA-B platform**. Completely redesigned from the ground up, this model features a new hybrid powertrain that improves both performance and efficiency. Compact, agile, and technologically advanced, the Aqua is ideal for everyday city use while maintaining the comfort and stability required for longer trips.

**Performance and Efficiency**
The vehicle is powered by a **1.5-liter Dynamic Force petrol engine** paired with an **electric motor**, delivering a **combined system output of around 116 horsepower**. The petrol unit produces about **91 hp**, while the electric motor adds approximately **80 hp**, ensuring smooth acceleration and exceptional fuel economy. Power is managed through an **e-CVT transmission**, which provides seamless gear transitions and optimal efficiency. With its lightweight design (**1,080–1,230 kg**, depending on trim), the Aqua delivers a refined, quiet, and economical driving experience.

**Design and Technology**
The latest-generation Aqua features a refreshed exterior with sleek proportions — **4,049 mm long, 1,694 mm wide, and 1,486 mm high** — offering excellent maneuverability in urban environments. Inside, it's equipped with modern infotainment and safety systems, including an intuitive multimedia display and Toyota's advanced hybrid energy management system. The layout maximizes space and practicality, making it a perfect 5-door hatchback for daily use.

**Ownership Benefits**
This offer includes a **full technical inspection** at our certified service center, covering the **engine, transmission, suspension, electrical system, and hybrid components**. The package also includes a **warranty on the engine and gearbox**, **free first service**, and **full registration under the buyer's name**, ensuring a smooth and worry-free ownership experience.
