Overview

The **Volvo C40 Recharge Ultimate 07/2023** is a fully electric premium crossover that combines Scandinavian design with advanced safety and connectivity. %READMORE% Finished in elegant Vapor Gray Metallic and equipped in Ultimate specification, this model delivers a refined, technology-focused driving experience with zero-emission performance.

Performance & Electric Drive

Powered by a 69 kWh battery and single electric motor driving the front wheels, the C40 offers smooth, instant torque and quiet operation. The electric powertrain ensures seamless acceleration, ideal for urban commuting and highway cruising alike.

Interior & Comfort

The minimalist Scandinavian cabin features high-quality materials and a panoramic glass roof that enhances natural light. Heated seats for all passengers and a heated steering wheel provide comfort during colder seasons. The power tailgate adds everyday practicality.

Technology & Connectivity

Equipped with Google built-in services including Google Maps navigation and voice assistant integration. The 360-degree camera system and front/rear dashcams enhance convenience and security. Apple CarPlay and Android Auto ensure seamless smartphone connectivity.

Safety

Volvo's renowned safety suite includes Adaptive Cruise Control, Lane Keep Assist, Blind Spot Monitoring, Rear Traffic Alert, and Collision Mitigation Braking, providing

confident and secure driving in all conditions.

Exterior

The coupe-inspired silhouette, signature Thor's Hammer LED lighting, and genuine 20-inch alloy wheels emphasize its modern and dynamic presence.
